

## Changes in traffic flow (18Sept17 - 30Sept18)

1) Drop-off point for parents & school buses in the morning

2) Pick-up point for pupils taking school buses after dismissal

Barricade along the walkway

Hoarding Area

### Traffic Flow Plan: With effect from 18 Sept (Mon) 2017

- Currently, students are dropped off in front of the school. However, to construct the Annex Block, hoardings will be put up in the area. This means that students cannot be dropped off in front of that block as is currently happening.
- The new drop-off point has been created beside the canteen, and the current netball court has been converted to allow for traffic flow.
- Traffic cones and directional signs have been put up to ensure a smooth traffic flow. Traffic marshals have been deployed also to direct traffic.
- Please refer to the attached slide for more information.
- Students can continue to access Side Gate 2 in the mornings and at dismissal. Barricades have been placed along the walkway to ensure that pupils do not stray into the netball court.

Days	Morning	Afternoon
Mon, Tue, Wed	6.30am to 7.45am	2.00pm to 5.30pm
Thur, Fri	6.30am to 7.45am	1.30pm to 5.30pm

- For safety purposes (as there could be heavy construction vehicles moving into and out of the school), parents who drive are to pick up students from the carpark adjoining Side Gate 2/Blk 465A after dismissal / CCA / support lessons etc. Parents will not be allowed to access the school via the main gate to pick up the students.

Thank you for your understanding and cooperation. Our focus, like yours, is always to ensure the safety of your children.
