Dear Parents / Guardian

### **2019 PRIMARY 5 MATHEMATICS IN MODULES PROGRAMME (M<sup>2</sup>P)**

1. P5 girls in the Standard Mathematics classes will go through a 2-year Mathematics in Modules Programme (M<sup>2</sup>P). The objective of this programme is to enable Mathematics to be taught in a sequence which our girls will find more appropriate, enabling them to learn in a more focused and in-depth manner.
2. In M<sup>2</sup>P, topics covered in both P5 and P6 will be restructured and taught in modules. The Mathematics Scheme of Work will be re-designed with the teaching of the various topics carefully paced out. At the end of the programme, all pupils will be equipped with mathematical skills and concepts to confidently handle their major Primary Six Leaving School Examination (PSLE). A list of topics taught each year is attached for your information.
3. To better support the programme, pupils are required to purchase P5 and P6 textbooks and activity books. These books will be used over a 2-year period. The Mathematics Department will also be producing resources to complement teaching and learning.
4. The Mathematics Department is committed to providing the best for our pupils. We look forward to your support. Should you have further enquiries, please do not hesitate to contact Ms Pancy Ho, Head of Department (Mathematics) via email at [ho\\_pancy@moe.edu.sg](mailto:ho_pancy@moe.edu.sg).

Thank you and God Bless.

Ms Christina Teo  
Principal
